

AI Bot Assistant Setup Guide

Welcome! This guide explains in clear, simple terms how to set up your AI Bot Assistant.

What is the AI Bot Assistant?

Your AI Bot Assistant is a customizable helper that answers questions, helps with tasks, and provides advice. You can personalize how it talks to you and what it knows. It's like having your own personal assistant that follows your instructions.

Name / Nickname

What it is:

The name the AI Bot Assistant will use when talking to you.

Example:

“Hi Sam, how can I help you today?”

Tip:

Pick anything you like—your real name, a nickname, or something fun.

Description / Role

What it is:

Describe what kind of assistant you want.

Examples:

- Travel planner
- Recipe assistant
- Writing coach
- Business advisor

Why it matters:

This tells the AI Bot Assistant what role to play so it can tailor its answers to help you better.

 Traits / Personality**What it is:**

Choose *how* you want your assistant to talk to you.

Examples:

- Friendly and casual
- Formal and professional
- Direct and to the point
- Encouraging and supportive

Why it matters:

This sets the assistant's personality so its replies match your preferred style.

 Upload Knowledge**What it is:**

Upload documents or files you want the assistant to use when replying to you.

Examples of what you can upload:

- Product manuals
- Company policies
- Notes or instructions

Important to know:

- The assistant uses these files only during this chat or for this specific assistant.
 - It doesn't save them permanently or share them with others.
-

Anything Else It Should Know

What it is:

Share any extra details about yourself to help the assistant give better responses.

Examples:

- Your hobbies or interests
- Your work or goals
- Preferences like “short answers” or “lots of detail”

Why it matters:

It helps the AI Bot Assistant tailor its answers to you personally.

Summary

When you create your AI Bot Assistant, you're telling it:

-  What to call you
-  What role to play
-  How to talk to you
-  What knowledge it should use
-  Any other helpful details about you

It's your assistant, your way!

Need Help?

If you're not sure how to fill something in, just pick something simple to start. You can always change it later.
